

Today's Research. Tomorrow's Medicine.

QUALITY IS OUR PRIORITY

ACRC Trials is committed to delivering high-quality data and services to our sponsors by implementing protocols efficiently and ethically, thus enabling sponsors to accelerate the drug development process. Our team leads the way in leveraging cutting-edge digital technology throughout clinical trials, optimizing the entire process for greater efficiency and effectiveness.

Utilizing e-source, e-regulatory (eTMF), e-stipend, CTMS, and remote monitoring, we minimize errors and bolster accuracy. By embracing real-time, centralized data collection, we ensure efficient and precise data entry and analysis. We take pride in our mission to provide exceptional services to our sponsors and volunteers, ensuring that patients can enjoy the benefits of approved treatments as quickly as possible.

Our commitment to excellence, reliability, and volunteer care has earned us recognition, with more investigators recognized by their peers than any other research facility in Texas. We welcome an invitation for dialogue regarding new research opportunities and look forward to cultivating long-term relationships with Sponsors and Clinical Research Organizations.

INVESTIGATOR SITE NETWORK

YOUR PARTNER IN DRUG DISCOVERY

WELCOME TO ACRC TRIALS

ACRC Trials is an esteemed network of large physician practices and clinics that specialize in vaccine, device, and treatment studies. Our headquarters at West Plano Medical Village, along with our clinics located in Plano, Frisco, Carrollton, Grapevine, Dallas, and Austin, TX, provide a distinct level of service to the medical research community. We are committed to upholding the highest standards of quality in implementing clinical research studies and managing volunteer safety.

Our experienced research team is dedicated to conducting clinical research studies with accuracy, efficiency, and excellence. ACRC Trials has conducted clinical studies involving volunteers for nationally and internationally recognized pharmaceutical and bio-technology companies, setting the standard of excellence in coordinating clinical trials to expedite the new drug development process.

ACRC Trials has established an outstanding reputation as a multi-specialty, outpatient research center, by repeatedly producing high quality data for Sponsors and Contract Research Organizations and ensuring the highest level of quality and efficiency in our services. The integrity of our data has been verified via successful FDA and sponsor audits, and we routinely receive recognition for our efficiencies, Standard Operating Procedures, comprehensive and professional source documents, and detailed documentation. Our locations allow us to conduct a wide variety of study designs and to capture the ethnically diverse population that ACRC Trials serves.

Our success stems from our dedicated staff of investigators who maintain rigorous attention to detail in their research. Comprised of research coordinators, administrative staff, regulatory specialists, and recruitment and contracts personnel, our team ensures efficient processes and seamless management. Our management team, led by directors and managers, facilitates progress towards our collective goal of advancing medicine.

FACILITY DESCRIPTION

- 9 LARGE PRACTICES IN TEXAS
- TOTAL DATABASE OF OVER 300,000 PATIENTS
- DEDICATED RESEARCH SUITES
- DEDICATED MONITORING & CONFERENCE ROOMS
- TEAMS DEDICATED TO VACCINE TRIALS
- EXPERIENCED CLINICAL RESEARCH COORDINATORS
- DEDICATED RECRUITERS
- DEDICATED REGULATORY PERSONNEL
- CONTRACTS & BUDGETS PERSONNEL
- CLINICAL TRIAL MANAGEMENT SOFTWARE
- E-SOURCE
- E-REGULATORY
- ETHNICALLY DIVERSE POPULATION
- CLIMATE AND ACCESS CONTROLLED STORAGE ROOMS
- EXTENDED HOURS TO ACCOMMODATE PATIENTS
- CENTRAL IRB
- SOPHISTICATED AND COMPREHENSIVE SOPs
- EXCELLENT SOURCE DOCUMENTS
- EXTENDED HOURS TO ACCOMMODATE PATIENTS

THERAPEUTIC AREAS

- ASTHMA, ALLERGY & IMMUNOLOGY
- CARDIOLOGY
- DERMATOLOGY
- EAR, NOSE, AND THROAT (OTOLARYNGOLOGY)
- ENDOCRINOLOGY, DIABETES AND METABOLISM
- FAMILY MEDICINE
- INTERNAL MEDICINE
- MEN'S HEALTH
- NEUROLOGY AND HEADACHE
- PEDIATRICS
- VACCINES
- WOMEN'S HEALTH

ACRC Trials is recognized for our rapid initiation, enrollment proficiency, quality assurance, and operational effectiveness. As an accomplished site, we continually exhibit commitment and ingenuity to exceed expectations. Our success stems from surpassing goals in participant enrollment and supplying sponsors and CROs with precise, comprehensive data in a punctual manner.
